

**Product description**

Zettex Zinc Spray Galvaniser is a fast drying sprayable paint, in galvaniser colour, with a high content of zinc. Resistant to chemical and mechanical abrasion. Gives a strong bonding and long-lasting protection.

**Material**

Zinc

**Advantages**

- Quick-drying
- Can be sprayed over
- Highly wear-resistant
- Chemical resistant
- High zinc level

**Uses**

Rust- and corrosion-resistant. Primer that can be sprayed over.

**User instruction**

Shake the spray can well before use. Apply evenly and not too thickly on the parts to be treated. Spraying distance approx. 25 to 30 cm. Allow Zettex Zinc Spray Galvaniser to dry. If necessary repeat the treatment.

**Available form**

- Aerosol 500ml

**Colour**

Grey

**Safety recommendations**

See safety information sheet

**Technical information**

Properties	Specification
Boiling point/boiling range	55°C
Melting point/melting range	150°C
Flash point	-40°C
Flammability	LEL 0.8 ol % in air at 25°C UEL 13.0
Self-combustion	> 2150°C
Explosive properties	none
Oxidising properties	none
Relative density	N/A
VOC content	42 g/100 ml
Solubility in water	Insoluble
Solubility in solvent	soluble in ketones/esters
