

### Product description

Zettex Multi Spray is a multi-purpose product with lubricating, cleaning, dewatering, penetrating and corrosion inhibition properties.

### Product benefits

- Long lasting lubrication.
- Moisture displacement.
- Moisture repellency.
- Formation of a temporary anti-corrosive coating.
- Ability to penetrate rust and corrosion deposits.
- Enhanced operating temperature range.

### Applications

You can use the Zettex Multi Spray on virtually limitless application areas and on all metallic surfaces and components including chains, cables, gears, tools, locks etc. Please don't use it on plastics where stress cracking or softening may occur.

Shake thoroughly before use. Spray directly onto the component or surface, from a distance of 15 to 25cm, and allow to penetrate or form a film.

### Packaging

- Aerosol 500 ml.

### Colour

- Transparent

### Safety recommendations

- Please read our MSDS before using this product.

### Technical data

Properties	Specification
Appearance	A turbid pale straw liquid with a pleasant odour
pH	Not applicable
Specific Gravity	0.795-0.81
Flammability, as supplied	Extremely flammable, flash point below -20
Composition Data	A solution of naphthenic oil, modified grease, water displacing additives and wetting agents, and PTFE in naphtha [petroleum], hydrocarbon heavy, in butane/isobutane/propane propellant.
Non Volatiles % m/m	20-30
Service temperature (Continuous)	Up to 80 °C
Service temperature (Intermittent)	Up to 150 °C
Viscosity	Thin liquid
